

# SauceDemo Manual Test Cases

Prepared for QA Portfolio

## TC\_001: Login Functionality – Valid User Authentication

**Priority:** High

**Pre-requisite:** User should have a registered account

**Steps:**

1. Open SauceDemo.com
2. Enter username: standard\_user
3. Enter password: secret\_sauce
4. Click Login

**Expected Result:** User is successfully redirected to the Products page after login.

## TC\_002: Login Functionality – Invalid Credentials

**Priority:** High

**Pre-requisite:** User should have a registered account

**Steps:**

1. Open SauceDemo.com
2. Enter username: standard\_user
3. Enter incorrect password: secret\_sauc
4. Click Login

**Expected Result:** Error displayed: 'Epic sadface: Username and password do not match any user in this service'.

## TC\_003: Verify Products Display After Login

**Priority:** Medium

**Pre-requisite:** User should have a registered account

**Steps:**

1. Login using valid credentials
2. Navigate to Products page

**Expected Result:** All products are displayed with name, image, and price details.

## TC\_004: Verify Add to Cart Functionality

**Priority:** High

**Pre-requisite:** User should be logged in

**Steps:**

1. Login using valid credentials

2. Click 'Add to cart' for any item

**Expected Result:** 'Add to cart' changes to 'Remove' and cart count increases by 1.

## **TC\_005: Verify Checkout Process**

**Priority:** High

**Pre-requisite:** User logged in and items added to cart

**Steps:**

1. Click Checkout
2. Enter First Name, Last Name, Zip/Postal Code
3. Click Continue
4. Review details and click Finish

**Expected Result:** Order successful message is displayed.

## **TC\_006: Login with Blank Username**

**Priority:** Medium

**Pre-requisite:** Application open

**Steps:**

1. Leave username blank
2. Enter password
3. Click Login

**Expected Result:** Appropriate validation error displayed.

## **TC\_007: Checkout with Invalid Zip Code**

**Priority:** Medium

**Pre-requisite:** Item added to cart

**Steps:**

1. Go to checkout
2. Enter alphabets in Zip/Postal Code
3. Click Continue

**Expected Result:** Validation error asking for valid zip code.
